OEM Audit Questionnaire

Name	Suzuki_Auditor 7
OEM Website Audited	Suzuki
Date Audit Completed	03-22-06
Browser and Version Used	Internet Explorer 6.0
Operating System and Version Used	windows xp home

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	<input type="text" value="Yes"/>	<input type="text"/>	
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	<input type="text" value="Yes"/>	<input type="text"/>	
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	<input type="text" value="Yes"/>	<input type="text"/>

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

I felt that this website has had a lot of thought put into it's design. It is easy to navigate, once I learned where things were. All in all, it is a good place to find information

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	Yes

In the space below, please provide any general comments about OBD System Monitors.

the information given was written in easy to understand language.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	Yes

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc. which would directly affect the ability of the vehicle to start/run within the original design parameters). Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	Yes	
4.2	Are you able to find the procedures to perform reprogramming?	Yes

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	NA	I did not find this information
4.4	Is the information to select the proper calibration for the vehicle available?	Yes	
4.5	Is the vehicle calibration available?	Yes	
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	NA	
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	NA	
4.9	Are you able to find information on tools needed to perform reinitialization?	Yes	
4.10	Are you able to find the procedures to perform reinitialization?

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	No	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	NA	
4.13	Do you have any experience using the alternate method?	No	
4.13a	If so, has it worked to your satisfaction?	NA
